

# ITALIAN TOUCH

FABRICS AND WALLPAPERS BY CARLUCCI

Italy is widely recognised as a global trendsetter and leader in many different areas of design. It exerts a major influence on interior, industrial and fashion design worldwide. Italy's iconic design is marked with the well-known phrase "Made in Italy".

Contemporary Italian design is the result of thousands of years of art and design history. Finding its roots in the classic art and architecture of the Romans. Today ancient frescos are preserved and exhibited side by side with contemporary Italian industrial design.

Italy has served as an inspiration to many before us. Carlucci always finds inspiration in Italian textiles and has a great love for Italian design. With the collection: "Italian Touch", Carlucci takes you on a whistle stop tour of this inspirational country. From the Lago di Como in the north to the hills of Tuscany and the hustle and bustle of Milan and Rome.

Join us for an unforgettable trip of the Italian peninsula with the eclectic fabrics collection that is: Italian Touch.
