FABRICS AND MORE BY CHIVASSO

DESIGNED FOR

The longing for naturalness in interior design is not ebbing away. Quite the opposite. Spring 2024 is filled with echoes from nature, in regards to the new fabrics and the colour palette. The result is a homely interior that is reduced to the essential things, and yet radiates coziness, elegance and warmth. The colour palette includes calm, light tones such as natural white and cream, soft grey or subtle wood tones. Deep Lagoon and Ice Green set cool accents, Copper Coin and Rich Gold warm ones.

DESIGNED

FOR

This furnishing theme presents itself modern and full of optimism, fresh, sunny and bright, warm-hearted and cosmopolitan, but also somewhat playful and romantic. Chunky structures and fluffy textures in association with soft sorbet shades such as Apricot Crush, sparkling Limelight and radiant Kelly Green create an individual feel-good paradise: restful, refreshing and full of energy. Honey shades like Symphonic Sunset and Straw are welcome mood-lifters and are combined with neutrals. Deep Lake, misty Blue Fog and Ice Green add cool accents.

DESIGNED
FOR

Going together step by step in the right direction: Being part of the textile industry, it is our responsibility to treat our earth's resources with respect and care. We rely to the greatest possible extent, on one hand on recycled fibres with a minimum of 50% – with an upward trend – and on the other hand, on natural fibres from biologically controlled qualities. And this is just the beginning. With Eco Protect by CHIVASSO, we take on the challenge of reducing our ecological footprint step by step.

BY CHIVASSO 

DESIGNED FOR

The complexity of business has increased and the requested standards for every single quality have risen. Achieving one's goals in this environment is a great challenge. Only the fewest fabrics, the so-called outperformers, succeed in achieving their goals above the ordinary. With the new outdoor collection from CHIVASSO, we achieve very outstanding goals in terms of quality and design by using solution-dyed acrylic or dope-dyed polyester fibres.

DESIGNED FOR

We want to have an uncomplicated, smart, safe, sustainable and sensible life and living. Qualities with very good maintenance and care properties that simplify our lives, give additional living comfort. Flame-retardant qualities offer extra safety within our own four walls. All these properties and requirements fuse into the new easy-to-use fabrics with flame-retardant properties, having one common and special feature: They not only look functional and of high-performance, but stylish, casual and smart.
