

A woman with blonde hair tied back, wearing a vibrant red dress with a large ruffle, is shown in profile, looking towards a large, colorful abstract painting. The painting features horizontal bands of various colors including red, orange, yellow, green, blue, and purple. The woman's face is softly lit, and her expression is contemplative. The overall scene is framed by a thin gold border.

GOLDEN SPACE

Inspiration for this theme is drawn from the sky, resembling a vast landscape of white, silver and gold from the first cool rays of light in the morning to the golden glow of evening. In this delicate but confident world, transitions are fluid and the surfaces soft and natural. **GOLDEN SPACE** exudes a warm and radiant aura.

Elaborate finishing techniques bring fine natural materials to a new level. Extraordinary ornaments, some of them created using the fil coupé technique, and metallic effects lend the textiles a luxurious look. Their three-dimensional textures produce a sophisticated interplay of light and shadow. A wide range of sumptuous and innovative wallcoverings, some with opulent embroideries, leaves nothing to be desired when it comes to timeless yet extravagant interior design.
