Furnishing fabrics that touch your heart! The **#SWEET HARMONY** theme inspires with casual textiles that invite you to dream and feel good. High-pile chenilles and velvets, refined semi-transparent fabrics, textures with added character, expressive jacquard fabrics in soft pastel shades and exceptional embroideries create a loving atmosphere full of warmth and security. No matter whether you opt for cosy upholstery fabrics or casual curtains with a linen look – each piece tells its own story of harmony and romance, and turns every home into a gentle retreat.

A mix of style, feeling and cosiness: without kitsch, but with a lot of heart.

SENSITIVE MINIMALIST

The #SENSITIVE MINIMALIST theme pays tribute to the “Quiet Luxury” style – understated but conspicuously high quality. The focus is on subtlety, feel and refined crafting. The design language is soft and rounded – no hard edges, no superfluous details. Everything appears organic, almost as if moulded by nature. The materials are in tune with this approach: ultra-soft surfaces, fluffy, high-pile qualities and textile structures that please not only the eye but also the senses. Delicate earthy tones, a soft green and a warm white dominate the colour palette, allowing rooms to unfold their character.

The collection invites you to rest, while providing a feeling of timeless, luxurious cosiness.

CREATIVE STATEMENTS

Where tradition meets contemporary clarity! In the **#CREATIVE STATEMENTS** collection theme, classic elements merge with modern design aesthetics in a vibrant dialogue. Large-format ornamentation, high-quality embroideries and elaborate jacquard motifs tell of a rich past, of style and of history. But here they meet contemporary plain fabrics and modern colour schemes that deliberately create space for new interpretations: sometimes they are opulent, sometimes minimalist, but always expressive and contemporary. Flame-retardant qualities further enrich the portfolio and are particularly suitable for demanding fields of use, where aesthetics and safety go hand in hand.

Classic and innovative elements are in perfect balance for people who live style and visualize creativity.
